

Summary of the:

**GQA LEVEL 2 NVQ DIPLOMA IN WATERPROOF MEMBRANE ROOFING SYSTEMS
(CONSTRUCTION)**

603/3808/8

Who is this qualification for?

The Level 2 NVQ Diploma in Waterproof membrane roofing systems(Construction) qualification has been developed for achievement in a real workplace environment. It is understood that not all individuals employed in this industry carry out exactly the same tasks so the qualification has pathways to allow proof of knowledge and competence in any or all of 3 areas, reinforced bitumen membrane systems, single ply membrane systems and liquid membrane systems.

All work must be carried out in accordance with safe working practices and to meet the specified contract requirements. The qualification has 5 mandatory units with a total credit value of 35 credits. To complete this qualification all mandatory units must be completed with the required credits from the chosen pathway(s).

The minimum credit value of this qualification is 52 credits.

Qualifications are now required to indicate the total qualification time (TQT), this is to show the typical time it will take someone to attain the required skills and knowledge to meet the qualification criteria, this qualification has a TQT of 580 hours.

Qualifications are also required to indicate the number of hours of teaching someone would normally need to gain the skills and knowledge to achieve the qualification. These are referred to as Guided Learning Hours (GLH). The GLH for this qualification is 194

Assessment Guidance

Evidence should show that you can complete all of the learning outcomes for each unit being taken.

Types of evidence:

Evidence of performance and knowledge is required. Evidence of performance should be demonstrated by activities and outcomes, and should be generated in the workplace only, unless indicated under potential sources of evidence (see below). Evidence of knowledge can be demonstrated through performance or by responding to questions.

Quantity of evidence:

Evidence should show that you can meet the requirements of the units in a way that demonstrates that the standards can be achieved consistently over an appropriate period of time.

Potential sources of evidence:

The main source of evidence for each unit will be observation of the candidate's performance and knowledge demonstrated during the completion of the unit. This can be supplemented by the following types of physical or documentary evidence:

- Accident book/reporting system
- Notes and memos
- Safety record
- Telephone/e-mail records
- Training record
- Customer and colleague feedback
- Audio evidence
- Records of equipment and materials
- Witness testimonies
- Work records
- Photographic/ video evidence

Please Note that photocopied or downloaded documents such as manufacturers' or industry guidance, H&S policies, Risk Assessments etc, are not normally acceptable evidence for GQA qualifications unless accompanied by a record of a professional discussion or Assessor statement confirming candidate knowledge of the subject. If you are in any doubt about the validity of evidence, please contact your GQA External Verifier.
